Requirements for "Initial Report"
Deadline - Thursday Week 4 at 5.00pm
SENG3011

Every team must hand in a report containing the following sections:

Team Web page URL

You must provide a URL which will correspond to your team's software releases throughout the workshop.

Initial Design

1. Describe how you intend to develop the API module and provide the ability to run it in either standalone or Web service mode

2. Discuss your current thinking about how parameters can be passed to your module and how results are collected. Show an example of a possible interaction.

3. Present and justify implementation language and environment (e.g. Linux, Windows) that will be used.

Initial Project Plan

Provide a project plan showing team member responsibilities, work arrangements and any information team members will be using to coordinate their activities. You should also mention any software tools used by the team to assist project management.

The report is meant to be a working document so some information will be incomplete at this stage. 4-5 pages should be enough.

Each group must submit the report <u>Thursday Week 4 at 5pm.</u> The report must be packaged under one file called report1.zip (max size 4Mb) and submitted to your tutor by email.
