

Requirements for “Initial Report”

Deadline - Friday Week 4 at 5.00pm

SENG3011

Every team must hand in a report containing the following sections:

Team Web page URL

You must create a simple website and provide a URL which will correspond to your team’s software releases throughout the workshop. Initial web page can be an introduction to your team.

Initial Design

1. Describe how you intend to develop the API module and provide the ability to run it in Web service mode
2. Discuss your current thinking about how parameters can be passed to your module and how results are collected. Show an example of a possible interaction. (e.g.- sample HTTP calls with URL and parameters)
3. Present and justify implementation language, development and deployment environment (e.g. Linux, Windows) and specific libraries that you plan to use.

Initial Project Plan

Provide a project plan showing team member responsibilities, work arrangements and any information team members will be using to coordinate their activities. You should also mention any software tools used by the team to assist project management.

The report is meant to be a working document so some information will be incomplete at this stage. 4-5 pages should be enough.

Each group must submit the report Friday Week 4 at 5pm. The report must be packaged under one file called <teamname>-report1.pdf (max size 4Mb) and submitted to your tutor by email.

Marking Criteria

| |
|----------------------------|
| Team Page URL (5%) |
| Initial Design (60%) |
| Initial Project Plan (25%) |
| Above and Beyond (10%) |

For each criteria, the following marks are given:

A for outstanding work, this is above expectations

B for very good work, this is for fulfilling all expectations

C for good work, mostly correct but some expectations have not been met

D for average work

E for work that is below standard

F Fail
